Exam:
- A 100 question exam **based on the 29 virtual patient cases** in fmCASES will be given on the last day of the clerkship. Completing the fmCASES, reading on the common problems listed on page 22 and patient encounters during your clerkship, will be helpful in preparation for the exam. A student not receiving a passing grade will be required to retake the exam. Students will be given 2 hours and 30 minutes to complete the exam.

Final Grade:
Your final grade for the Family & Community Medicine Clerkship will be based on:
- Evaluation by the faculty at the clerkship site. For your information see pages 17-18 for a copy of the student evaluation form used by preceptors to assess your performance during the clerkship.
- Exam
- Assignments

*Extra credit can be earned if five or more computer cases are completed. However, grades are given based on the quality of work and not simply the quantity of work. Therefore, completing extra computer cases may help, but not guarantee a higher grade.*
