The Penn State Cancer Institute at The Pennsylvania State University College of Medicine is recruiting tenure track physician scientists and clinical investigators at the assistant/associate professor level at the Penn State Cancer Institute. The successful individual must possess an M.D., M.D./Ph.D. degree with fellowship training in Medical Oncology/Hematology and board certification in Internal Medicine and Oncology. Experience in Clinical Pharmacology and ability to develop clinical trials with correlative science components, selection of relevant biomarkers and pharmacodynamic endpoints are required. The research environment allows for advancing translational efforts in a multidisciplinary and inter-programmatic setting. Salary will commensurate with experience and interest/expertise in solid tumors, especially breast cancer, genitourinary and hematologic malignancies are preferred. The position is part of the continuing growth of the Penn State Cancer Institute and a planned major expansion of the research facilities of the College over the next few years. For additional information about the Penn State Cancer Institute, please visit the following website: http://www.hmc.psu.edu/cancer/. Interested applicants should submit curriculum vitae, a brief statement of research plans and arrange to have three letters of reference sent to: Chandra P. Belani, M.D., Deputy Director, Penn State Cancer Institute, Penn State College of Medicine, 500 University Drive, H072, Hershey, PA 17033. Review of applications will continue until the position is filled. Penn State is committed to affirmative action, equal opportunity and the diversity of its workforce.
